A bright little boy of Mr. T. Dorsey, who resides at 1934 Kingman's Place, near Iowa Circle, met with a frightful accident yesterday morning, which resulted in his death, after much morning, which resulted in his death, after much auffering. He was standing near the Latrobe stove, when his dress caught on fire and he was soon wrapped in flames. He was only hor years of age and was a bright and lovable child.

Chief Cronin, of the fire department, has sent a letter to the Commissioners urging them to so amend the building regulations that the proprie-tors of large warehouses be compelled to protect the surrounding property from fire by placing from hutters on their windows. In such cases as the shutters on their windows. In such cases as the Polkinhorn conflagration this would prevent fire from communicating to the surrounding buildings. The letter was referred to the Inspector of Build-ings, who reports that the proposed shutters would undoubtedly accomplish this purpose, but would only be necessary in the most closely build-up places, where the rear of two or more buildings were very close to each other. Mr. and Mrs. Florence at the National. The inclemency of the weather doubties deterred many play-goes from witnessing "Professor Opstein" last evening, still a fair audience saw Mr. Florence's rendition of titular character with evident enjoyment, as their appliance was seemingly unstituted. While the opportunities for a display of the inherent dramatic shillties of Mr. and Mrs. Florence are more limited in this play than in the "Mighty Dollar," still as the creatic but large hearted Professor and Mrs. Fin Duccy, "a leader of fashion," respectively, this twain of accomplished artists found nuch favor with the Intelligent and appreciative hearters present. The action of the play takes place at a seaside resort, and the Misses Elisler and Tavernier, with Messre, Dade, Harris, and Lamb, proved they had a proper conception of the parts assigned them in this most amising concely. Mr. Florence surprised every one with his excellent German dialect, and his charming wife won new funcils as Mrs. Fla Dacy, a character depicting the average American society woman to the letter. At to-day's matinee (Thanksgiving) John Brougham's dramatization of "Dombey and Son" will be given, with Mr. Florence as Captain Cuttle. The "Mighty Dollar" will be repeated this evening and Saturday matinee. At the closing performance Saturday in "The Ticket-of-Leave Man." The inclemency of the weather doubt-

There was a lively business done in mar riage licenses at the City Hall yesterday, no less riage licenses at the City Hall yesterday, no less than twenty being issued during the day. The cause of this boom in the matrimonial market is attributed to the beliday, which exerts its genisl influence to bring loving heart toesther. Thanksigiving is a good day to be married, and if for any reason it does not turn out to be an event to be thankful for it need not be included in the record for the year. As a sort of a balance to this boom a suit for divorce has been the daily occurrence in the flistrict courts during the past few days, and this is a practical demonstration, if any is needed, that narriage does not always prove a source of thanksgiving.
